PROFESSIONAL SUMMARY

Strategic Senior Full-Stack Developer and Tech Lead with 7+ years of expertise in architecting high-performance web applications using the PHP/Laravel and Vue.js ecosystems. Proven success in driving 40%+ increases in operational efficiency through scalable database design and secure RESTful API development. Expert at leading engineering teams through complex digital transformations, modernizing legacy systems, and implementing robust security protocols (OAuth/JWT) for enterprise-level platforms.

TECHNICAL SKILLS

Languages: PHP (Expert), JavaScript (ES6+), Java, SQL (MySQL, PostgreSQL), HTML5/CSS3

Frameworks: Laravel, Vue.js, React.js, Node.js, Express.js, Angular, WordPress

Cloud/DevOps: AWS (Lambda, S3, DynamoDB, API Gateway, EC2), Docker, CI/CD, Cpanel

Core Competencies: System Architecture, SOLID Principles, Microservices, REST/SOAP APIs, JWT/OAuth

Tools: PhpStorm, WebStorm, Mongosh, Postman, Git, Jira, Slack, Trello, Asana

EXPERIENCE

Senior Software Engineer / Tech Lead

June 2025 – Present

Tyler Technologies

Baton Rouge, LA

- Architecting core components for the Enterprise Supervision CMS, managing critical case tracking for adult and juvenile probation departments.
- Optimizing high-availability data models for client case data, including risk assessments and financial restitution tracking.
- Modernizing the Supervision Access portal with automated notification systems and secure payment processing to reduce manual overhead.
- Providing technical leadership and mentorship to the development team on Tyler Application Platform (TAP) best practices.

Sr. VueJs and Laravel Developer

Apr. 2019 – Apr. 2024

Codespider Technology

London, England

- Engineered a large-scale e-commerce platform using Laravel and Vue.js, improving system scalability by 30% through optimized database indexing.
- Developed custom payment gateways via Stripe and PayPal APIs, decreasing manual transaction labor costs by 50%.
- Built and maintained secure RESTful APIs for multi-vendor environments, resulting in 40% faster data retrieval speeds.
- Strengthened application security by implementing JWT and OAuth authentication, reducing system vulnerabilities by 60%.
- Managed code reviews and technical debt reduction, leading to a 20% increase in cross-functional team productivity.

Web Developer

June 2018 – Mar. 2019

Technorio Inc Pvt. Ltd

Kathmandu, Nepal

- Designed and deployed CRM and POS software for market-leading clients, increasing their operational efficiency by 40%.
- Optimized WordPress architectures, achieving a 35% improvement in page load speeds and a 20% boost in user engagement.
- Developed interactive frontend modules using Vue.js and jQuery to enhance end-user experience and interactivity.

EDUCATION

Maharishi International University

Fairfield, IA

Master of Science in Computer Science (Distance Education)

May 2024 – May 2026

Tribhuvan University

Butwal, Nepal

Bachelor of Science in Computer Science & Information Technology

Sep. 2014 – June 2018
